The Guide provides practical information that can assist laryngectomees with medical, dental and psychological issues. It contains information about side effects of radiation and chemotherapy; methods of speaking; airway, stoma, and voice prosthesis care; eating and swallowing; medical, dental and psychological concerns; respiration; anesthesia; and travelling.

The Guide is also available in 21 additional languages, i.e., English, Russian, Turkish, Italian, Bulgarian, Romanian, Bosnian, Arabic, Spanish (4 styles), Portuguese, French, Persian (Farsi), Korean, Japanese, Filipino (Tagalog), Indonesian and traditional and simplified Chinese (<https://dribrook.blogspot.com/2018/08/the-laryngectomy-guide-is-available-in.html>).
